Apicbase – Front-end developer senior-remote Brazil

What are we looking for?

Apicbase is a Belgian fast-growing scale-up. We make software for the Food and Beverage industry. We are looking for a great Front End Developer who has a vision and a passion for ease of use and who is unstoppable in his urge to translate software into human patterns.

What will you be doing?

- Develop and enhance the software powering using Vue.js.

- Work closely with designers to transform Figma design files into intuitive and engaging user experiences.

- Optimize and maintain the frontend codebase using Webpack, SCSS (SASS), and JavaScript best practices and performance.

- Collaborate with the team in refining development processes and ensuring high code quality.

- Participate in team meetings to discuss the future of our application and contribute to refactoring efforts.

- Take ownership of various parts of our frontend ecosystem, ensuring smooth implementation, testing, and maintenance.

- Stay on the lookout for new technologies and approaches to streamline our frontend development process.

- More than 3 years of experience in frontend development.

Who are you?

We value open-minded individuals with a growth mindset over niche experts, but the following qualifications will help you hit the ground running:

- Experience with Vue.js (Vue 3) and related technologies like Vuex, Vue Router, and others.

- Proficiency in modern frontend development using JavaScript, Webpack, and SCSS (SASS).

- Experience working with Figma or similar design tools to convert UI/UX designs into functional frontend components.

- Python and/or Django experience is a nice-to-have but not mandatory.

- Experience with API consumption, mainly RESTful API.

- Strong problem-solving skills and a proactive approach to improving efficiency.

- You take responsibility for delivering high-quality, functional, and scalable frontend solutions.

What do we offer?

- A full-time and ultra-varied job at a well-funded, successful and fast-growing scale-up

- Working in a company culture with ownership, self-responsibility and accountability

- Being part of a young, flexible and dynamic team that builds together the future of Apicbase

- The time to learn and master state-of-the-art technologies

- Possibility to travel to technology and food events

- An attractive and competitive salary
